

The proposed revisions are necessary to clarify the General NPDES Permit as it relates to EPA's CSO policy and to clarify previous language. There is no change to the current permit application fee of \$100 for general and \$500 for an individual permits. The following paragraphs summarize proposed revisions to the current permit documents:

(1) The permit was reformatted to comply with a standard outline format. Modifications to the existing language were made to page 2, paragraphs 5 and 6; page 3 item I.D., item I.E. and the last paragraph on page 5 to clarify previous language. In addition, changes were made to page 7, item IV.A; page 16, items III.D. and E.; and page 17, item IV.B.2.c. for clarification. Additional changes were made throughout the document to clarify language. These changes do not constitute major changes to the document, but rather, a clarification of prior language.

(2) The provisions of Part C item III.A. previously required that until completion of the implementation of the Long Term Control Plan, the Combined Sewer Overflow could not contain any pollutant in amounts or concentrations that cause or contribute to an instream excursion above State water quality standards. New language has replaced this existing language to clarify that the provisions of 25 Pa. Code § 93.6 apply.

Proposed Revisions to the State Implementation Plan for the Philadelphia Ozone Nonattainment Area; Public Hearings

Ground-level ozone concentrations above the Federal health-based standard are a serious human health threat and can also cause damage to crops, forests and wildlife. The Department of Environmental Protection (Department) is seeking public comment on two State implementation plan (SIP) revisions for the Philadelphia ozone nonattainment area (Bucks, Chester, Delaware, Montgomery and Philadelphia counties).

The United States Environmental Protection Agency (EPA) has asked the Commonwealth to submit additional information on the analysis of additional reasonably available control measures that would advance the ozone attainment date for the Philadelphia area. The first SIP revision demonstrates to EPA that the Department considered additional control measures by clarifying relevant documentation previously submitted to EPA.

The second SIP revision establishes a new 2005 motor vehicle emission budget for 2005 for the purposes of transportation conformity. Areas must include in their SIPs all control measures which will be in place by the attainment year and which are assumed in the air quality attainment demonstration. This proposed SIP includes emission reductions attributable to the Federal new car program (Tier 2/Low Sulfur) that begins with the 2004 model year.

These proposals are available on the Department's website at <http://www.dep.state.pa.us>, choose Information by Subject/Air Quality/State Implementation Plans, or through the contact persons listed.

The Department will hold two consecutive public hearings to receive comments on the SIP revision on Thursday, June 28, 2001, at 1 p.m. and 2 p.m., respectively, at the Department of Environmental Protection, Southeast Regional Office Hearing Room, Lee Park, 555 North Lane, Suite 6010, Conshohocken, PA.

Persons wishing to present testimony at the hearing should contact Connie Cross, (717) 787-9495 (P. O. Box 8468, Harrisburg, PA 17105) to reserve a time. Persons who do not reserve a time will be able to testify after preregistrants. Witnesses should keep testimony to 10 minutes and should provide two written copies at the hearing. Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceeding, should contact Wick Havens at (717) 787-9495. TDD users may contact the AT&T Relay Service at (800) 654-5984 to discuss how the Department can best accommodate their needs.

Written comments should be sent to Wick Havens, Chief, Division of Air Resource Management, Bureau of Air Quality, P. O. Box 8468, Harrisburg, PA 17105-8468 no later than close of business on June 29, 2001.

Public Meetings/Hearings on Draft Antidegradation Guidance

The Department of Environmental Protection (DEP) is holding a series of three public meetings/hearings on its draft Antidegradation Implementation Guidance. This document describes procedures proposed for use in administering the antidegradation component of Pennsylvania's Water Quality Standards as required under the Federal Clean Water Act. The Guidance was developed by DEP's Bureau of Water Supply and Wastewater Management and is available on the DEP website at www.dep.state.pa.us (directLINK "Water Quality Assessment and Standards") or can be obtained by contacting Mary Houghton at DEP Office of Water Management, Bureau of Water Supply and Wastewater Management, Division of Water Quality Assessment and Standards, 10th Floor, Rachel Carson State Office Building, P. - 1) Processing of petitions, evaluations and assessments to change a designated use;
- 2) Qualifying as HQ or EV waters;
- 3) Protection of HQ and EV waters including nondischarge alternatives, nondegrading discharge alternatives and minimum technology-based standards (antidegradation best available combination of technologies);
- 4) Social or economic justification needed to lower water quality;
- 5) Nonpoint source controls; and
- 6) Public participation during implementation of antidegradation requirements.
